## INTRODUCTION

Indonesia is a state of law based on Pancasila and the 1945 Constitution. With applicable law, the people Indonesia are expected to be law-abiding people by not violating existing rules. But with the large number of people in Indonesia does not rule out the possibility of cases of violation of the law. One of the most common forms of lawlessness in Indonesia is drug-related crime or abuse. Narcotics / drugs are substances or drugs both natural, synthetic, and semi-synthetic that cause the effect of decreased consciousness, hallucinations, and excitability.

Based on information from the Paser State Prosecutor's Office, the cases handled by the General Crimes Section in 2021

narcotics cases were the most handled cases, namely 122 cases and in 2022 there were 69 cases. Drug crime is a problem because it causes negative impacts such as disturbances in mental and physical health, even causing death. The abuse factor is the main source of drug crime cases and with technological advances makes it easier for perpetrators to smuggle drugs illegally

The drug problem is regulated in Law No. 25 of 2009, to minimize the crime case, changes must be made to overcome the problem starting from the smallest things such as, education on the dangers of drugs to adolescents to increase awareness about drug abuse. In general, teenagers are known for high curiosity, want to try new things and are active in community life.

Along with technological advances, it has a major influence on adolescent behavior in the digital age. One of the positive effects of the existence of advanced technology is that it can help provide education to adolescents, especially in the world of Education. It is also useful as a medium of education about drug abuse, thus it will be more effective if there is a collaboration between education about the dangers of drug crime with technology such as the creation of educational applications on the dangers of drug crime. With the hope that the collaboration can raise awareness and awareness about the dangers of drug crime so that it can be applied by adolescents in community life.

Therefore, education on drug abuse and also the law of Narcotics Law No. 35 of 2009 is needed. Researchers are interested in creating innovative applications KICK (Kumpulan Informasi Cegah Kejahatan) drugs as a medium of education awareness of the dangers of drug abuse in Paser.

## **RESULTS AND DISCUSSION**

Research has been carried out to make environmentally friendly *biodegradable plastic* based on potato starch, Implementation

Description and scope

### ***Best Practice***

KICK application (Kumpulan Informasi Cegah Kejahatan) drugs is an educational application that contains the understanding of drug abuse. The purpose of this application is to prevent drug abuse in adolescents by protecting the well-being of adolescents from the many negative impacts caused by drug use such as organ disorders, mental, anxiety, physical, cognitive, social and emotional development. views can reduce and inhibit the ability to learn, concentration, social relationships and future prospects of adolescents. In addition, adolescents are the future generation of the nation by preventing drug abuse in adolescents, we

can create a generation that is more productive, competitive, and contribute positively to society.

The purpose of writing this best practice is to describe the author's best experience in the development of KICK (Kumpulan Informasi Cegah Kejahatan) drugs as a media of education awareness of the dangers of drug abuse in Paser Regency. Target implementation of best practice this application is among adolescents with vulnerable ages 12-18 years.

As for the features of the (a collection of information to prevent drug crime:

### 1. *Online exhibition*

In the online exhibition feature, it presents a selection of what can be called stands, ranging from the history of drugs, types of drugs, the negative impact of drug users and how to overcome drug abuse. In this feature also displays educational videos about drugs.

Help is a feature that users can use when having difficulty using the application so that they can contact the developer for repairs if they experience interference.

### ***Best Practice***

The implementation of this best practice activity is to utilize the Android-based application KICK application (Kumpulan Informasi Cegah Kejahatan)

Narkoba as a media of education awareness of the dangers of drug abuse among adolescents in Paser Regency. The following is a series of activities that have been carried out by researchers as follows:

1. *Sharing session with Kick Narkoba*

The *sharing session with Kick* drugs activity is an activity held by Kick Narkoba partners with the theme "Stop drugs starting from yourself". This activity was held on July 23, 2023 with 120 participants, containing material, namely, understanding drugs, types of drugs, because users use drugs, the bad effects of abuse and introducing the KICK Narkoba application.

2. Offline exhibition

This offline exhibition was held during the I-Fest (Insan Cendekia Festival) which was held on August 21, 2023 s.d August 23, 2023. This activity aims to provide information and present the work of the drug Kick application to visitors who are participants in the I-Fest competition along with their respective mentors. In this exhibition, visitors can scan and download the drug Kick application via barcode scan or can directly use the application in the tab available at the Kick Narkoba stand.

3. Online discussion forums

Through the forum, users can discuss with each other on a topic that has been determined by the moderator. the discussion forum activity "Tukar Pikir with kick Narkoba" is a forum or channel for online discussions that can be done by teenagers by expressing their opinions on the WhatsApp group link that has been spread on the account @kick.narkoba instagram users can express their opinions regarding the topic that has been determined.

4. Socialization of KICK (Kumpulan Informasi Cegah Kejahatan) Narkoba with the theme "Remaja Hebat Tanpa Narkoba"

his activity is a forum to deliver education to teenagers who are Junior High School students/MTs with the aim of

reducing the increasing number of drug abuse users. this activity was carried out on October 6, 2023. This activity contains drug material, namely, understanding drugs, types and classes of drugs, the impact of drug abuse and Kick Narkoba partners also promote Kick Narkoba applications to socialization participants.

The following is a list of schools participating in the socialization:

- a. 1.SMPN 1 Tanah Grogot
- b. 2.SMPN 2 Tanah Grogot
- c. 3.SMPN 3 Tanah Grogot
- d. 4.SMPN 4 Tanah Grogot
- e. 5.SMPN 5 Tanah Grogot
- f. 6.SMPN 6 Tanah Grogot
- g. 7.SMPN 7 Tanah Grogot
- h. 8.SMPN 8 Tanah Grogot
- i. 9.SMPN 1 Batu Engau
- j. 10.MTsN 1 Passer
- k. 11.SMPIT Al- Khawarizmi
- l. 12.MTs Babulussalam

5. Working with JARWASNABA

JARWASNABA (Youth Network alert Drug Abuse) which is a group of drug prevention movement in Paser in collaboration with KICK (Kumpulan Informasi Cegah Kejahatan) drugs based on the same vision and mission and purpose, namely to help reduce the number of drug abuse.

6. Om Jak answering activities in collaboration with Student Ambassadors aware of the law

Om Jak replied that the activity was a weekly activity organized by the Paser State Prosecutor's Office to coincide with the weekly CFD (*Car Free Day*) activity. In this activity aims to provide education to the wider community related to understanding the law, the public may ask anything related to the law and the prosecutor's office will answer. This activity also collaborates with Duta Pelajar Sadar Hukum Paser Regency by promoting innovation ideas made while participating in the Duta Pelajar Sadar Hukum Paser Regency level.

## Results achieved

The results achieved from the application of this Kick Narkoba application are as follows. With the Kick Narkoba application, a number of teenagers are very enthusiastic in participating in socialization activities and introducing applications to target students of Man Insan Cendekia Paser. In every activity carried out by the researchers get a good response, besides KICK drug users also increased. In addition, the socialization activity with the theme “Remaja Hebat Tanpa Narkoba” went smoothly according to the design of the event. This activity received a positive response because the participants had a very high enthusiasm when participating in the activity. Participants who were students of SMP / MTs gained a new understanding of the dangers of drug abuse.

**Figure 1: KICK (Kumpulan Informasi Cegah Kejahatan Narkoba) Narkoba socialization with the theme “Remaja Hebat Tanpa Narkoba”**

The researchers also spread a link in the form of an application or a means of downloading the Kick Narkoba application listed on our instagram account @kick. Narkoba the 92% knew the basis of the Narcotics Act, 89% understood drug crime material, 85% felt that this application was effective in preventing drug crime.

In the discussion forum feature also get active response from users. By using the online discussion minister using the WhatsApp platform, the forum “Tukar Pikir With Kick Narkoba, active users ask each other opinions and also provide other

views related to drug problems. Not only giving opinions but, users can also ask and be answered by drug Kick partners. In addition, the researchers also gave awards to users who are active in the activities of this discussion forum.

## CONCLUSION

Teenagers are known for high curiosity, want to try new things and are active in community life. Along with technological advances, it has a major influence on adolescent behavior in the digital age. With the influence in the digital era, it will help provide education to adolescents, especially in the world of Education. It is also useful as an educational medium on drug abuse. Therefore, the creation of the Kick (Kumpulan Informasi Cegah Kejahatan) Narkoba Application is motivated in increasing awareness of narcotics law among adolescents and the wider community. With the existence of the Kick (Kumpulan Informasi Cegah Kejahatan) Narkoba Application, teenagers become more aware of the dangers of drug abuse and know the impact of drug abuse on themselves and the wider community.

The researcher realized that the Kick (Kumpulan Informasi Cegah Kejahatan) Narkoba application still has many shortcomings and is still under development and will continue to be

updated over time. Therefore, the researcher asked the reader to channel criticism and suggestions related to the application that the researcher created. It is hoped that this application can benefit the wider community and increase awareness of abuse laws.
